**Fall Winter 2025 - 2026**  
made in Italy

It is time for change, for renewal, for new projects, for a new beginning.

Thus was born the desire to create a brand that encompasses these peculiarities and that interprets a different way of living everyday life through what we wear.

Unique, timeless shapes, without gender identity, perfect for him and for her. Each product is conceived and designed by a young and dynamic creative team and is made in Italy by specialized artisans through a supply chain certified by the strictest standards for respect for people and work.

All garments and accessories are treated according to the current and highest standards of environmental sustainability with the aim of achieving the complete elimination of chemical substances in production processes.

With these premises, after presenting a small capsule, for winter 2025-2026, 13:13 proposes a real collection composed of 13 outfits inspired by the purity and simplicity of minimal lines, typical of Asian aesthetics, reinterpreted with the mastery of Made in Italy.

Our mission is to offer an experience of sober elegance thanks to the fusion of wool and cashmere, fine materials that give unparalleled quality.

The wide and sophisticated silhouettes wrap the body in a fluid way, giving a feeling of absolute comfort, while the sober and refined design allows you to stand out with discretion.

We have selected the best yarns from the most important Italian producers: 100% super fine merino for outerwear and trousers, cashmere and alpaca blends for sweaters and accessories, for a light and relaxed result, highlighted by soft or deep colors.

A perfect balance between minimalism and luxury, for those who love elegance without ostentation.

maxi cardigan **BARBARA**
